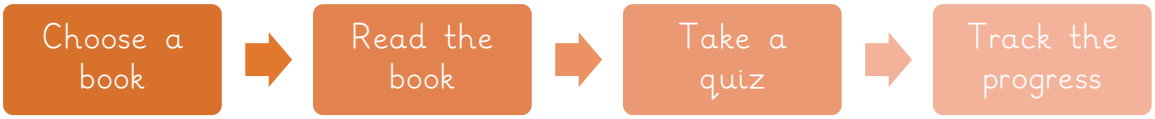
# Accelerated Reader

## What is Accelerated Reader?

Accelerated Reader (AR) is a digital program that helps monitor and support children's independent reading. The program encourages children to read books at their own level, take quizzes and track their progress. AR is there to support reading and comprehension skills.

## How does it work?

A Star Reader test is completed at the start of term to identify your child's Zone of Proximal Development (ZPD). Children then choose a book from our library and/or the myON digital library to read based on their ZPD level. When they have finished reading, children take a short quiz - pass marks are at 75%. By reading at the recommended level for them, most children are likely to be successful and enjoy the books and quizzes. Best of all they learn and grow at their own pace. AR will track the progress so teachers are able to monitor progress and offer additional support should it be needed.



## Quizzes

Children should complete quizzes as soon as possible after finishing a book (ideally within 24 hours). This is done in school but pupils are encouraged to complete quizzes at home too.
To complete a quiz, children should log onto AR, search for their book (either by the name of the book or quiz number located inside the front cover) and select 'take quiz'.
*NB. Not all books have quizzes available.*

## Tracking progress at home

You can track the progress of child at home via the link below:
https://global-zone61.renaissance-go.com/studentprogress/homeconnect?t=2102774

Use your child's AR login details to view books read, quiz results, reading progress and performance over time.
