## Would your child like to learn Judo?

We are successfully holding Judo sessions as a regular weekly club for your child to attend at Coten End Primary School.

---

### What can Judo do for your child?

Judo is a great sport to help your child develop self-confidence, coordination, strength, and suppleness.  
Judo is also well known to develop fantastic strength of character and self-discipline in its students.

### What is Judo?

Judo is a safe, competitive, full contact, Olympic sport. Judo has more of a resemblance to wrestling than to many of the other martial arts seen in films or on TV.  
It involves no punching or kicking. Sorry ☹

---

### Your child can learn how to:

Throw an opponent without injury.  
Roll and fall safely without injury.  
Hold or pin an opponent on the floor safely.  
Cope with the general contact of the sport.

### We will provide:

A Judo kit for your child to borrow on a session by session basis, free of charge.  
A qualified Red Star coach, D.B.S. checked, first aid and child protection trained.

## Physical, intellectual and moral education

From its inception in 1882, Judo has always been more than just a sport. Jigoro Kano created Judo in Japan as a new method of physical, intellectual and moral education. Based on core values, Judo is about making a positive contribution to society.

We want Judo to be an integral part of the educational development of every child. Our programme helps to empower every child, by developing mental and physical health. It contributes to their social-emotional development, extending to the classroom and life, creating a holistic approach for your child's education.
